# METALLURGIA

*THE BRITISH JOURNAL OF METALS*

## Index to Vol. XIII.

November, 1935—April, 1936.

KENNEDY PRESS LIMITED
21, Albion Street
GAYTHORN, MANCHESTER 1

# INDEX

Page

A

Alloy Steel Development ..... 5
Alloys for Internal Architectural Purposes, Metals and .....7–10
An Important Centre of Non-Ferrous Metallurgy—Soviet Kazakstan ..... 10
Alumina Crucibles ..... 14
Alternating Stresses, The Strength of Metals Under Combined .. 17–20
Apparatus for Testing Aluminium Alloys, Special. By E. John Pike 35–37
Application of Electric Furnaces, Progress in Design and. By H. Knight ..... 53–56
Alloys, X-Ray Powder Photography of. By Dr. Bradley ..... 69–70
Alloys, Elektron Magnesium..... 106
Aluminium and Standard Aluminium Base Alloys. Corrosion Resistance of. By P. Mabb.. 109–113
A.S.T.M. Tentative Standards ....142
Analysis for Impurities in Copper and Brass, Methods of ..... 158
Ageing Following Severe Disturbance, Length Variation of Steel Wire During. By H. Goulbourne Jones, M.Sc. ..... 155–157
Alloys, Thermal Conductivities of Metals and. By J. W. Donaldson, D.Sc. ..... 159–160
A Continuous Bright Normalising Furnace for Hot and Cold Rolled Steel Strip..... 167–169
Application of Aluminium and Its Alloys, Progress in the Development and ..... 171
Aluminium Alloys in Shipbuilding and Marine Engineering. By J. W. Donaldson, D.Sc. ..... 173–177
Advances in Metallurgy, Recent ... 178
Activity at the Darlington Forge .. 190

B

British Trade and Industry..... 39
British Iron and Steel Production, Recent Trend in. By K. R. Binks ..... 67–68
Bore Finish and Wear, Cylinder ... 82
Base Alloys, Corrosion Resistance of Aluminium and Standard Aluminium. By P. Mabb ..... 109–113
Bronzes, Progress in the Production of Cast Iron. By Francis W Rowe, B.Sc. ..... 119–120
British Industries Fair..... 123–132
Bottle Moulds, Cast Iron for the Manufacture of Glass ..... 141–142
Brass, Methods of Analysis for Impurities in Copper and..... 158
Brass and Copper Forgings..... 162
Bright Normalising Furnace for Hot and Cold Rolled Steel Strip, A Continuous ..... 167–169
Banding in Forged and Rolled Steel, Ferrite. By A. V. Prol oroff..179–181
Breaking Strain, The Upper and Lower Yield Points and. By Prof. Dr. G. Welter ..... 183–187

C

Crucibles, Alumina ..... 14
Combined Alternating Stresses, The Strength of Metals Under ....17–20
Construction, Recent Developments in Steel Frame..... 29
Central Laboratories Opened at Derby, New Railway Research .33–38
Corrosion and Heat-Resisting Steels, Progess in ..... 41–44
Copper Developments, A Review of Recent Work. By a Special Contributor ..... 57–60
Cold Rolling Mills, Modern Developments in. By C. E. Davies, A.M.I.Mech.E. ..... 79–81
Cylinder Bore Finish and Wear .... 82
Cupola and Good Quality Castings, The. By Walter West ..... 83–84
Combine, The Orsk. By a Special Contributor ..... 97–98

Page

Carbide and Cobalt Cutting Material, Tungsten. By Arthur Haslam ... 103
Cold Rolling Mills, Modern Developments in. By C. E. Davies, A.M.I.Mech.E. ..... 107–108
Corrosion Resistance of Aluminium and Standard Aluminium Base Alloys. By P. Mabb..... 109–113
Crushers, Heavy Duty Slugger .... 116
Coil Winding Ropes, Locked, By Richard Saxton ..... 117–118
Cast Iron Bronzes, Progress in the Production of. By Francis W. Rowe, B.Sc. ..... 119–120
Crapo Galvanising Process, The.... 136
Cast Iron for the Manufacture of Glass Bottle Moulds..... 141–142
Copper and Brass, Methods of Analysis for Impurities in ..... 158
Conductivities of Metals and Alloys, Thermal. By J. W. Donaldson, D.Sc. ..... 159–160
Conquest of The Pamirs, The. By a Special Correspondent..... 161–162
Copper Forgings, Brass and..... 162
Continuous Bright Normalising Furnace for Hot and Cold Rolled Steel Strip, A ..... 167–169

D

Development in Roll Manufacture.. 1–4
Development, Alloy Steel ..... 5
Dies, Reducing Spalling on Nitrided, By Bernard Thomas..... 23–25
Developments in Steel Frame Construction, Recent..... 29
Developments, Foundry. By a Special Contributor..... 40
Developments in the Manufacture and Application of Magnesium and Magnesium Alloys, Recent. By W. C. Devereux, A.F.R.Ae.S... 47–49
During 1935, Some Trends in Steel Metallurgy. By J. H. G. Monypenny, F.Inst.P. ..... 50–52
Design and Application of Electric Furnaces, Progress in. By H. Knight, B.Sc. .....53–56
Developments, Copper, A Review of Recent Work. By a Special Contributor .....57–60
Development in the Tin Industry, Research and Technical. By a Special Contributor .....61–62
Developments in Cold Rolling Mills, Modern. By C. E. Davies, A.M.I.Mech.E. .....79–81
Design, The Relation of Laboratory Research to Engine ..... 87
Developments, Machine Tool ....95–96
Developments in Cold Rolling Mills, Modern. By C. E. Davies, A.M.I.Mech.E. ..... 107–108
Duty Slugger Crushers, Heavy .... 116
During Ageing Following Severe Disturbances, Length Variation of Steel Wire. By H. Goulbourne Jones, M.Sc. .....155–157
Development and Application of Aluminium and Its Alloys, Progress in the ..... 171
Difference Method of Open-Hearth Furnace Reversal. By A. Smithson ..... 188–190
Darlington Forge, The Activity at the ..... 190

E

Electric Furnaces, Progress in Design and Application of. By H. Knight ..... 53–56
Engine Design, The Relation of Laboratory Research to ..... 87
Elektron Magnesium Alloys ..... 106
Equipment at Metropolitan-Vickers, Welding and Welding..... 150
Engineering, Aluminium Alloys in Shipbuilding and Marine. By J. W. Donaldson, D.Sc. .....173–7

Page

F

Frame Construction, Recent Developments in Steel ..... 29
Foundry Developments. By a Special Contributor ..... 40
Feed Water, Removal of Oxygen from ..... 44
Foundry Practice, Synthetic Moulding Materials for Magnesium..... 49
Furnaces, Progress in Design and Application of Electric. By H Knight ..... 53–56
Ferrous and Non-Ferrous Metal Industries, Town Gas in the. By a Special Contributor .....63–66
Furnaces, Progress in Melting and Heat-Treatment ..... 73–76
Finish and Wear, Cylinder Bore.... 82
Ferrous and Non-Ferrous Metal Industries, Town Gas in The. Part II. Specially Contributed..85–87
Ferrous and Non-Ferrous Metal Industries, Town Gas in the. Part III. Specially Contributed ..... 115–116
Fair, British Industries .....123–132
Furnaces, Progress in Melting and Heat-Treatment .....133–135
Fusion Welded Pressure Vessels 145–149
Following Severe Disturbance, Length Variation of Steel Wire During Ageing. By H. Goulbourne Jones, M.Sc..... 155–157
Forgings, Brass and Copper ..... 162
Furnace for Hot- and Cold-Rolled Steel Strip, A Continuous Bright Normalising.....167–169
Ferrite Banding in Forged and Rolled Steel. By A. V. Prohoroff 179–181
Furnace Reversal, The Temperature Difference Method of Open-Hearth. By A. Smithson ....188–190
Forge, The Activity at the Darlington ..... 190

G

Gas in the Ferrous and Non-Ferrous Metal Industries, Town. By a Special Contributor .....63–66
Good Quality Castings, The Cupola. By Walter West ..... 83–84
Gas in the Ferrous and Non-Ferrous Metal Industries, Town. Part II. Special Contributed..... 85–87
Gas in the Ferrous and Non-Ferrous Metal Industries, Town. Part III. Specially Contributed .....115–116
Galvanising Process, The Crapo.... 136
Glass Bottle Moulds, Cast Iron for the Manufacture of ..... 141–142

H

Heat-Treatment Furnaces, Progress in Melting and .....73–76
Heavy Duty Slugger Crushers ..... 116
Heat-Treatment Furnaces, Progress in Melting and .....133–135
Hot- and Cold- Rolled Steel Strip, A Continuous Bright Normalising Furnace for.....167–169
Handling Steel Sheets in Pickling .. 170

I

Internal Architectural Purposes, Metals and Alloys for.....7–10
Important Centre of Non-Ferrous Metallurgy, Soviet Kazakstan ... 10
Industry, British Trade and..... 39
In Corrosion- and Heat-Resisting Steels, Progress. By Dr. W. H. Hatfield, F.R.S. .....41–44
In the Manufacture and Application of Magnesium and Magnesium Alloys, Recent Developments. By W. C. Devereux, A.F.R.Ae.S. 47–49
In Steel Metallurgy During 1935, Some Trends. By J. H. G. Monypenny, F.Inst.P. .....50–52
Industry in Northern Ontario, The Nickel..... 62

Page
Industry, Research and Technical Development in the Tin. By a Special Contributor .....61–62
Industries, Town Gas in the Ferrous and Non-Ferrous Metal. By A Special Contributor .....63–66
Iron and Steel Production, Recent Trend in British. By K. R. Binks .....67–68
In Melting and Heat-Treatment Furnaces, Progress .....73–76
Industries, Town Gas in the Ferrous and Non-Ferrous. Part II. Specially Contributed .....85–87
Industry in 1935. The Platinum By Chas. Engelhard..... 104
Industry, The Main Product of the Steel ..... 105
In Cold Rolling Mills, Modern Developments. By C. E. Davies, A.M.I.Mech.E .....107–108
In the Ferrous and Non-Ferrous Metal Industries, Town Gas. Part III. .....115–116
In the Production of Cast Iron Bronzes, Progress. By Francis W. Rowe, B.Sc.....119–120
Iron for the Manufacture of Glass Bottle Moulds, Cast.....141–142
Institute of Metals, The.....151–154
Impurities in Copper and Brass. Methods of Analysis for ..... 158
In Pickling, Handling Steel Sheets 170
In the Development and Application of Aluminium and Its Alloys, Progress ..... 171
In Shipbuilding and Marine Engineering, Aluminium Alloys. By J. W. Donaldson, D.Sc. .....173–177
In Forged and Rolled Steel, Ferrite Banding. By A. V. Prohoroff 179–181
Iron Bronzes. Progress in the Production of. By Francis W. Rowe, B.Sc. .....119–210
Industries Fair, British .....123–132
In Melting and Heat-Treatment Furnaces, Progress .....133–135
In Forged and Rolled Steel, Ferrite Banding. By A. V. Prohoroff 179–181
In Metallurgy, Recent Advances.. 178

L
Laboratories Opened at Derby, Railway Research New Central 33–38
Laboratory Research to Engine Design, The Relation of..... 87
Limits and the Tensile Strength of Mild Steel and Other Metals, Research on Yield. By Prof. Dr. G. Welter ..... 89–92
Ladle Refractories, Steel. By A Jackson ..... 93–94
Laboratories, New Production and Research .....101–103
Locked Coil Winding Ropes. By Richard Saxton .....117–118
Length Variation of Steel Wire During Ageing Following Severe Disturbance. By H. Goulbourne Jones, M.Sc. .....155–157
Largest Telescope, The Second .. 172
Lower Yield Points and the Breaking Strain, The Upper and By Prof. D. G. Welter.....183–187

M
Manufacture, Development in Roll 1–4
Metals and Alloys for Internal Architectural Purposes .. ..7–10
Metallurgy, Soviet Kazakstan—An Important Centre of Non-Ferrous 10
Metals Under Combined Alternating Stresses, The Strength of.....17–20
Metal Matte, Treatment of Precious. By C. C. Downie .....21–22
Mersey Tunnel, The ..... 26
Manufacture and Application of Magnesium and Magnesium Alloys, Recent Developments in the. By W. C. Devereux, A.F.R.Ac.S. 47–49
Metallurgy During 1935, Some Trends in Steel. By J. H. G. Monypenny, F.Inst.P.....50–52
Moulding Materials for Magnesium Foundry Practice, Synthetic .... 49
Melting and Heat-Treatment Furnaces, Progress in..... 73–76
Modern Developments in Cold Rolling Mills. By C. E. Davies, A.M.I.Mech.E. .....79–81
Metal Industries, Town Gas in the Ferrous and Non-Ferrous. Part II. Specially Contributed .....85–87
Mild Steel and Other Metals, Research on Yield Limits and the Tensile Strength of. By Prof. Dr. G. Welter .....89–92
Machine Tool Developments .....95–96
Material, Tungsten Carbide and Cobalt Cutting. By Arthur Haslam ..... 103
Main Product of the Steel Industry, The ..... 105
Magnesium Alloys, Elektron..... 106
Modern Developments in Cold Rolling Mills. By C. E. Davies, A.M.I.Mech.E. .....107–108
Melting and Heat-Treatment Furnaces, Progress in..... 133–135
Manufacture of Glass Bottle Moulds, Cast Iron for the.....141–142
Metropolitan Vickers, Welding and Welding Equipment at ..... 150
Metals, The Institute of .....151–154
Metallic Wear..... 157
Methods of Analysis for Impurities in Copper and Brass ..... 158
Metals and Alloys, Thermal Conductivities of. By J. W. Donaldson, D.Sc. .....159–160
Marine Engineering, Aluminium Alloys in Shipbuilding and. By J. W. Donaldson, D.Sc.....173–177
Metallurgy, Recent Advances in .. 178
Method of Open-Hearth Furnace Reversal, The Temperature Difference. By A. Smithson.....188–190

N
Non-Ferrous Metallurgy, Soviet Kazakstan—An Important Centre of ..... 10
Nitrided Dies, Reducing Spalling on. By Bernard Thomas .....23–25
New Central Laboratories Opened at Derby, Railway Research. ....33–38
Nickel Industry in Northern Ontario, The ..... 62
Non-Ferrous Metal Industries, Town Gas in the Ferrous and. By a Special Contributor .....63–66
Non-Ferrous Metal Industries, Town Gas in the Ferrous and. Part II. Specially contributed .....85–87
New Production and Research Laboratories .....101–103
Non-Ferrous Metal Industries, Town Gas in the Ferrous and. Part III .....115–116
Nickel-Clad Steel Plate .....139–140
Normalising Furnace for Hot- and Cold- Rolled Steel Strip, A Continuous Bright .....167–169

O
Oxygen From Feed Water, Removal of ..... 44
Ontario, The Nickel Industry in Northern ..... 62
On Yield Limits and the Tensile Strength of Mild Steel and Other Metals, Research. By Prof. Dr. G. Welter .....89–92
Orsk Combine, The. By a Special Contributor .....97–98
Open-Hearth Furnace Reversal, The Temperature Difference, Method of. By A. Smithson .....188–190

P
Progress in Special Steels, Recent. By Sir Robert Hadfield, Bt., F.R.S. .....11–14
Precious Metal Matte, Treatment of. By C. C. Downie.....21–22
Progress in Corrosion and Heat-Resisting Steels. By Dr. W. H. Hatfield, F.R.S. .....41–44
Practice, Synthetic Moulding Materials for Magnesium Foundry.. 49
Progress in Design and Application of Electric Furnaces. By H. Knight, B.Sc. .....53–56
Production, Recent Trend in British Iron and Steel. By K. R. Binks.67–68
Powder Photography of Alloys, X-ray. By Dr. Bradley .....69–70
Progress in Melting and Heat-Treatment Furnaces .....73–76
Production and Research Laboratories, New .....101–103
Platinum Industry in 1935, The. By Charles Engelhard ..... 104
Product of the Steel Industry, The Main ..... 105
Progress in the Production of Cast Iron Bronzes. By Francis W. Rowe, B.Sc. .....119–120
Progress in Melting and Heat-Treatment Furnaces .....133–135
Progress, The Crapo Galvanising.. 136
Plate, Nickel Clad Steel .....139–140
Pressure Vessels, Fusion Welded 145–149
Pamirs, The Conquest of The. By a Special Correspondent ....161–162
Pickling, Handling Steel Sheets in.. 170
Progress in the Development and Application of Aluminium and Its Alloys ..... 171
Pyrometry ..... 172
Points and the Breaking Strain, The Upper and Lower Yield. By Prof. Dr. G. Welter .....183–187

Q
Quality Castings, The Cupola and Good. By Walter West ..... 834

R
Roll Manufacture, Development in 1–4
Recent Progress in Special Steels. By Sir Robt. Hadfield, Bt., F.R.S. ..... ..11–14
Reducing Spalling on Nitrided Dies. By Bernard Thomas.....23–25
Recent Developments in Steel Frame Construction ..... 29
Railway Research, New Central Laboratories Opened at Derby 33–34 and 38
Removal of Oxygen From Feed Water ..... 44
Recent Developments in the Manufacture and Application of Magnesium and Magnesium Alloys. By W. C. Devereux, A.F.R.Ac.S. 47–49
Research and Technical Development in the Tin Industry. By a Special Contributor .....61–62
Recent Trend in British Iron and Steel Production. By K. R. Binks 67–68
Research and Work ..... 77
Rolling Mills, Modern Developments in Cold. By C. E. Davies, A.M.I.Mech.E. .....79–81
Relation of Laboratory Research to Engine Design, The..... 87
Research on Yield Limits and the Tensile Strength of Mild Steel and Other Metals. By Prof. Dr. G. Welter .....89–92
Refractories, Steel Ladle. By A. Jackson .....93–94
Research Laboratories, New Production and .....101–103
Rolling Mills, Modern Developments in Cold. By C. E. Davies, A.M.I.Mech.E. .....107–108
Resistance of Aluminium and Standard Aluminium Base Alloys, Corrosion. By P. Mabb .....109–113
Rail Steel and Rail Wear. By L. Sanderson .....113–114
Ropes, Locked Coil Winding. By Richard Saxton .....117–118
Rolled Steel Strip, A Continuous Bright Normalising Furnace for Hot and Cold .....167–169
Rolled Steel, Ferrite Banding in Forged and. By A. V. Prohoroff 179–181

Page
Recent Advances in Metallurgy .... 178
Reversal, The Temperature Difference Method of Open-Hearth Furnace. By A. Smithson ....188–190

S

Steel Development, Alloy ..... 5
Soviet Kazakstan—An Important centre of Non-Ferrous Metallurgy 10
Special Steels, Recent Progress in. By Sir Robert Hadfield, Bt., F.R.S. .....11–14
Strength of Metals Under Combined Alternating Stresses, The .....17–20
Spalling on Nitrided Dies, Reducing. By Bernard Thomas.....23–25
Steel Frame Construction, Recent Developments in ..... 29
Special Apparatus for Testing Aluminium Alloys. By E. John Pike 35–37
Steels, Progress in Corrosion and Heat-Resisting. By Dr. W. H. Hatfield, F.R.S. .....41–44
Some Trends in Steel Metallurgy During 1935. By J. H. G. Monypenny, F.Inst.P. .....50–52
Synthetic Moulding Materials for Magnesium Foundry Practice.... 49
Strength of Mild Steel and other Metals, Research on Yield Limits and, The Tensile. By Prof. Dr. G. Welter .....89–92
Steel Ladle Refractories. By A. Jackson .....93–94
Steel Industry, The Main Product of the ..... 105
Standard Aluminium Base Alloys, Corrosion Resistance of Aluminium. By P. Mabb.....109–113
Steel and Rail Wear, Rail. By L. Sanderson .....113–114
Slugger Crushers Heavy Duty .... 116
Steel Plate, Nickel-Clad .....139–140
Standards, A.S.T.M. Tentative.... 142
Stateliest Ship, The ..... 143
Steel Wire Drawing Ageing Following Severe Disturbance, Length Variation of. By H. Goulbourne Jones, M.Sc. .....155–157
Steel Strip, A Continuous Bright Normalising Furnace for Hot- and Cold- Rolled .....167–169
Steel Sheets in Pickling, Handling.. 170
Second Largest Telescope, The.... 172
Shipbuilding and Marine Engineering, Aluminium Alloys in. By J. W. Donaldson, D.Sc. .....173–177
Steel, Ferrite Banding in Forged and Rolled. By A. V. Prohoroff 179–181
Strain, The Upper and Lower Yield Points and Breaking. By Prof. Dr. G. Welter .....183–187

T

The Strength of Metals Under Combined Alternating Stresses .....17–20
Treatment of Precious Metal Matte. By C. C. Downie .....21–22
The Mersey Tunnel..... 26
Testing Aluminium Alloys, Special Apparatus for. By E. John Pike 35–37
Trade and Industry, British ..... 39
Trends in Steel Metallurgy During 1935, Some. By J. H. G. Jonypenny, F. Inst.P.....50–52
Technical Development in the Tin Industry, Research and. By a Special Contributor .....61–62
The Nickel Industry in Northern Ontario ..... 62
Town Gas in the Ferrous and Non-Ferrous Metal Industries. By a Special Contributor .....63–66
Trend in British Iron and Steel Production, Recent. By K. R. Binks .....67–68
The Cupola and Good Quality Castings. By Walter West....83–84
Town Gas in the Ferrous and Non-Ferrous Metal Industries. Part II. Specially contributed .....85–87
The Relation of Laboratory Research to Engine Design..... 87
The Tensile Strength of Mild Steel and Other Metals, Research on Yield Limits and. By Prof. Dr. G. Welter .....89–92
Tool Developments, Machine.....95–96
The Orsk Combine. By a Special Contributor .....97–98
Tungsten Carbide and Cobalt Cutting Material. By Arthur Haslam 103
The Platinum Industry in 1935. By Charles Engelhard ..... 104
The Main Product of the Steel Industry ..... 105
Town Gas in the Ferrous and Non-Ferrous Metals Industries. Part III. .....115–116
The Production of Cast Iron Bronzes, Progress in. By Francis W. Rowe, B.Sc.....119–120
The Crapo Galvanising Process.... 136
The Manufacture of Glass Bottle Moulds, Cast Iron for.....141–142
Tentative Standards, A.S.T.M..... 142
The Stateliest Ship ..... 143
The Institute of Metals .....151–154
Thermal Conductivities of Metals and Alloys. By J. W. Donaldson, D.Sc. .....159–160
The Conquest of the Pamirs. By a Special Correspondent.....161–162
The Development and Application of Aluminium and Its Alloys, Progress in ..... 171
The Second Largest Telescope .... 172
The Upper and Lower Yield Points and the Breaking Strain. By Prof. Dr. G. Welter .....183–187
The Temperature Difference Method of Open-Hearth Furnace Reversal. By A. Smithson .....188–190
The Darlington Forge, The Activity at ..... 190

U

Under Combined Alternating Stresses, The Strength of Metals....17–20
Upper and Lower Yield Points and the Breaking Strain, The. By Dr. G. Welter .....183–187

V

Vessels, Fusion Welded Pressure 145–149
Variation of Steel Wire Drawing Ageing Following Severe Disturbance, Length. By H. Goulbourne Jones .....155–157

W

Water, Removal of Oxygen From Feed ..... 44
Work and Research..... 77
Wear, Cylinder Bore, Finish and .. 82
Wear, Rail Steel and Rail. By L. Sanderson .....113–114
Winding Ropes, Locked Coil. By Richard Saxton .....117–118
Welded Pressure Vessels, Fusion 145–149
Welding and Welding Equipment at Metropolitan-Vickers ..... 150
Wear, Metallic ..... 157
Wire Drawing Ageing Following Severe Disturbance, Length Variation of Steel. By H. Goulbourne Jones, M.Sc.....155–157

X

X-Ray Powder Photography of Alloys. By Dr. Bradley.....69–70

Y

Yield Limits and the Tensile Strength of Mild Steel and Other Metals, Research on. By Prof. Dr. G. Welter .....89–92
Yield Points and the Breaking Strain, The Upper and Lower. By Prof. Dr. G. Welter ....183–187

Page
CORRESPONDENCE.
Copper Mining and Smelting in Germany .....15–16
Grain Size Control .....15–16
Electric Resistance Alloys .....15–16
Electric Resistance Alloys .....45–46
Electric Resistance Alloys ..... 78
Rail Steel and Rail Wear..... 144

REVIEWS OF CURRENT LITERATURE.
Journal of the Institute of Metals .. 20
Metallurgical Abstracts ..... 20
General Foundry Practice ..... 68
Electroplating ..... 68
A Bibliography on the Cutting of Metals ..... 88
Technical and Scientific Encyclopædia ..... 88
Striations in Tin Coatings on Copper 88
Welding Iron and Steel .....121–122
Researches on Tin and Its Uses..121–122
Proceeding of Institute of Metals 121–122
The Structure of Metals and Alloys 182
Tin Researches..... 182

RECENT DEVELOPMENTS IN TOOLS AND EQUIPMENT.
The Magnetic Separation of Minerals 27–28
A New Oil-fired Heat-Treatment Furnace .....27–28
A Four-unit Wire-drawing Machine27–28
New Plant for the Manufacture of Die-blocks ..... 163
Qualities of Steel Available..... 163
New Soviet Alloy ..... 163
Cold Hobbing Die Steel .....191–192
Electric Furnace Brazing .....191–192
New Universal Grinding Machine191–192

RECENT INVENTIONS.
Conveying Furnace Charges..... 164
Heat-Treating and Coiling Steel Rods .....164

BUSINESS NOTES AND NEWS.
Railway Works Programme..... 30
Headgear for S. A. Copper Mines... 30
Oil from Coal, Scottish Move..... 30
